

30MM x 113

M789

High Explosive
Dual Purpose (HEDP)

M788

Target Practice (TP)

MUNITIONS

MEDIUM CALIBER

Cartridges manufactured in a modern ISO 9001 compliant facility with automated assembly and inspection equipment managed with proven statistical process controls

Both cartridges loaded with REACH compliant St. Marks Powder® 855 propellant for improved high temperature storage performance and decreased muzzle flash

M789 provides proven armor piercing capability with lethal fragmentation using the low impulse 30mm x 113 M230 automatic cannon

- Dual purpose warhead for anti-personnel and armor defeat
- Effective Fragmentation
- Proven Armor Penetration
- 25.4mm RHA 50°NATO 500 Meters
- Reliable Fuze Function at High Oblique Impact

M788 is a ballistically matched training round to the M789

30MM x 113

High Explosive Dual Purpose (HEDP)

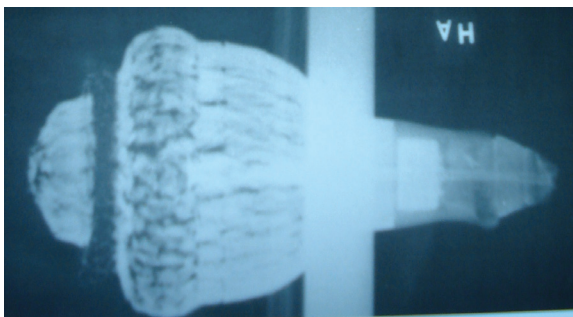

TECHNICAL DATA

Length	199mm
Weight	340gm
Muzzle Velocity	805 m/sec
Effective Range	3000+ Meters
Proven to perform after 33 days of +71°C exposure	

THIN PLATE FUNCTION

Effective Fragmentation

DEMONSTRATED ARMOR PENETRATION

25.4mm RHA 50°NATO 500 Meters
